

## Mobile Internet Information

Unfortunately, there is no WLAN available on the meeting site. If Internet is required, we recommend purchasing a SIM card or E-SIM for your device from one of the Swiss telephone providers.

Prepaid offers are available with varying levels of service. Prepaid offers run as long as there is credit on the SIM. If the existing credit is used up, the card can be recharged via the Internet, in many supermarkets and at ticket machines at train stations.

An official identification document must be presented to purchase a SIM.

All mobile operators have stores in Delémont where SIM cards are sold.

**Swisscom Shop**  
Pl. de la Poste 1  
2800 Delémont
